### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:
2. The closest prior art of records, Malkamaki et al, us 5,577,024, fails to teach or suggest the following:

A method/system or base station in which automatic repeat request is provided, comprising (inter alias): selectively gating a physical layer radio channel to provide ACK and NACK indications responsive to the receipt of data, wherein the physical layer radio channel is a forward common power control channel, and transmitting power control bits in time-multiplexed power control groups on the forward common power control channel, for power controlling a plurality of mobile stations, and defining an ACK sub-channel on the forward common power control channel by allocating a number of power control group slots for sending ACK/NACK indications rather than power control bits using the selective gating, as indicated in independent claims 1, 8 and 15.

### ***Conclusion***

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
